DETAILED ACTION

Applicant's arguments filed 9/22/05 have been fully considered but they are not persuasive because of the following reasons:

The terminal disclaimer filed on 9/22/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 10/713,469; 10/714,266 and 10/714,83 has been reviewed and is NOT accepted.

The terminal disclaimer was not signed.
Claims 1-29 and 40 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 17-40; 1,5-7 and 9-24; 1, 5-7 and 9-27 of copending Application No. 10/713,469; 10/714,266 and 10/714,837; respectively. Although the conflicting claims are not identical, they are not patentably distinct from each other because for the reasons as stated in the last Office action.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1711

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
